

Clark Equipment WA Doosan Account Manager Cameron Beath with the Doosan DX190W prior to delivery.

## Another happy Clark customer

CCF WA Member Clark Equipment recently delivered a Doosan DX190W Wheeled Excavator to a Perth customer. From road construction, trenching and material crushing to site preparation to laying foundations or installing facilities, the DX190W has outstanding multipurpose capabilities, combining productivity, performance and lifting and digging capabilities with the ability to

travel at up to 35 km/h between sites.

The DX190W's modular design allows the machine's undercarriage to be easily configured with a dozer blade or outriggers to be mounted on either end of the machine.

## SIMEX offers quick stabilisation

SIMEX PL high depth planers from Total Rockbreaking Solutions enable productive stabilisation or rehabilitation of existing roadways. The SIMEX PL high depth planers enable contractors to crush and mix road base with stabilisation agents down to 350mm.

The planers have a patented self-levelling feature ensuring seamless contact with the road surface regardless of the angle you are working from. This ensures constant depth in all conditions and all surfaces are cut to a precise level.

The size of the SIMEX PL high depth planer can be a huge benefit when working on size restricted sites as the skid steer and SIMEX planer combination enables contractors to get into tight spots where large profilers might not be able to reach.

For more information contact CCF WA Member Total Rockbreaking Solutions.

The SIMEX PL 5020 is available from CCF WA Member Total Rockbreaking Solutions.

**MJB Industries**  
Concrete Pipe & Precast

### PIPE & PRECAST

MJB Industries Pty Ltd is a state wide supplier of concrete pipe and precast products that prides itself on quality and service. A family business, MJB travels the path of continuous improvement in all facets of the business, from product manufacture to training of our staff. Since the beginning, MJB has become a supplier of choice for many civil contractors throughout Western Australia.

The precast range includes pipes from 300mm diameter through to 2100mm diameter. Up to 6.0 meter span Box Culverts, Grated/Junction/Side Entry Pit Covers including a the Main Roads range of GT, HN & RT's with precast base slabs to suit. We produce some of the largest size Headwalls in the industry, allowing for multiple barrels and Main Road Traversable Headwalls with Guard Rails. 3.0 meter high and greater L-Shape and T-Shape Retaining Walls, Custom Size Panels, Cattle Troughs, Septic Systems and many more, all whilst maintaining a high quality product and great customer service.

MJB continues to be a major supplier throughout WA, using its own transport division to supply to Kununurra in the North and Esperance in the South.
